EDUCATION

MASTER OF ECONOMICS

Faculty: E-business

Wroclaw University of Economics and Business (2002 – 2007)

Faculty: Automatic and Robotic

Wroclaw University of Science and Technology (2004 – 2005)

Faculty: Computer Science

Wroclaw University of Science and Technology (2002 – 2003)

PROFESSIONAL PROFILE

Software developer with 20+ years of software development experience across the full stack. Strong foundation in HTML, CSS, C#, VBA, JavaScript and SQL databases (MySQL, PostgreSQL, MSSQL), plus hands-on experience with Selenium and WebDriver for browser automation and testing, using Git and CI pipelines throughout. Brings practical, cross-platform experience to modern frontend development – someone who understands not just how to build a UI, but how it fits into the systems and workflows around it. Actively building React and AI skills to complement this background.

HOBBY

A true enthusiast of programming across a wide range of technologies. That's why I work on my personal projects in my free time. Currently, I'm really interested in learning React.js. I also love travelling and riding a bike.

I consent to the processing of my personal data for the purposes necessary to carry out the recruitment process in accordance with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (GDPR).
